

The EETTE logo is displayed in white text on a dark blue rectangular background in the top right corner of the image. The logo consists of three horizontal lines above the word "EETTE" and three horizontal lines below it.

EETTE

PHARMACEUTICALS

For a healthy process of your end-of-line packaging

High-performance depalletising systems for **glass bottles**

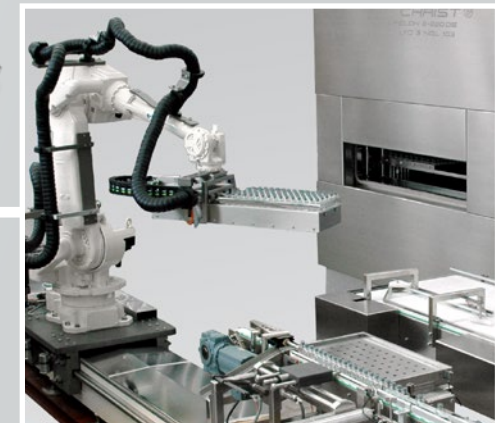

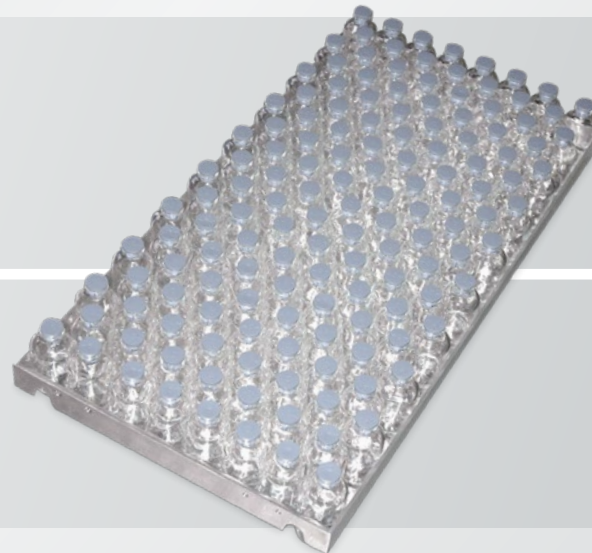

Customised depalletising concepts even for **challenging packs**

Safe handling even of **soft products** with carrier transport and screw collation

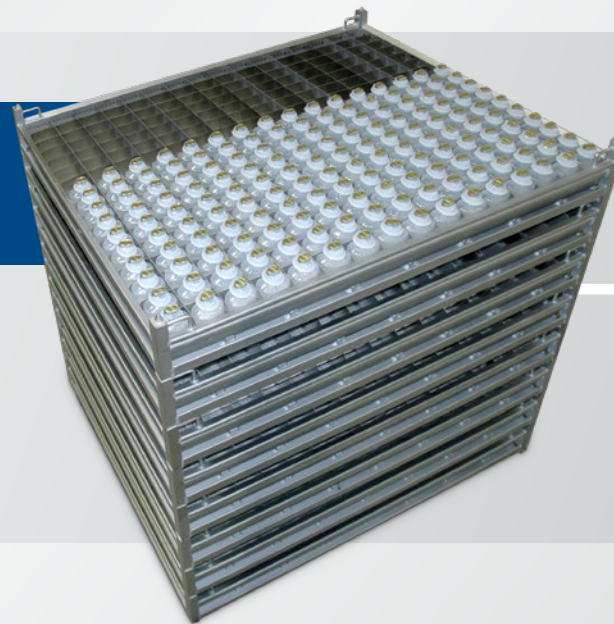

Flexible use of robots in the clean room for loading and unloading freeze dryers

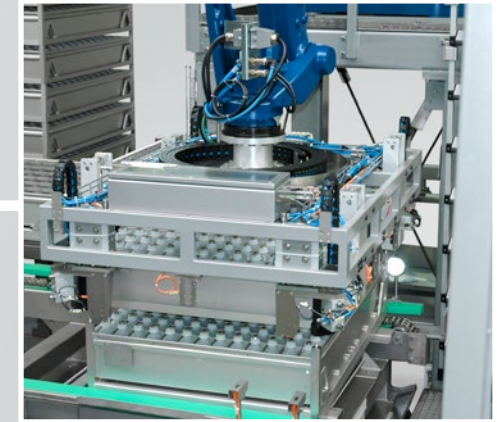

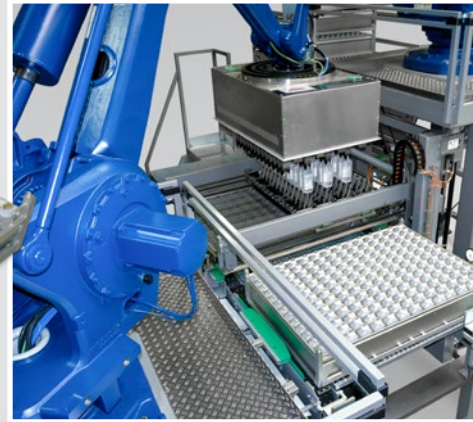

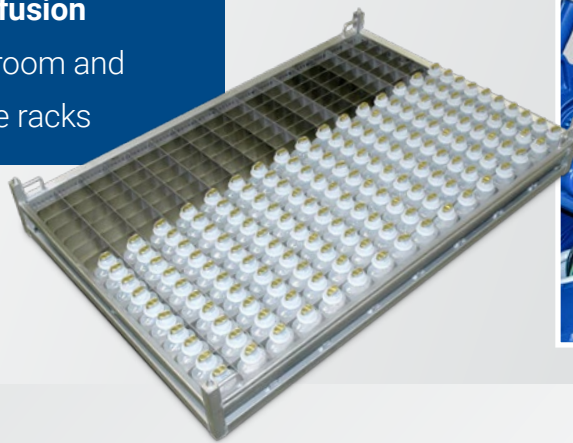

High performance with secure gripping of **sensible pharmaceutical products**

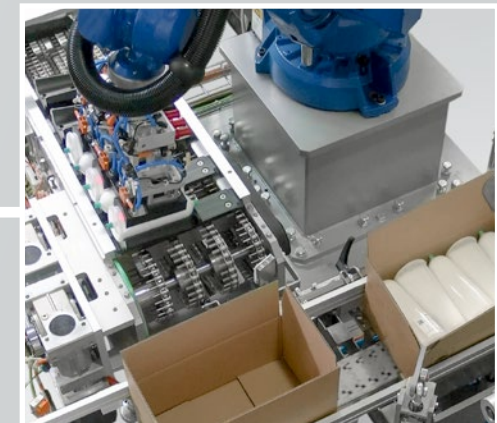

Reliable provision and handling of autoclave racks in the sterilisation area

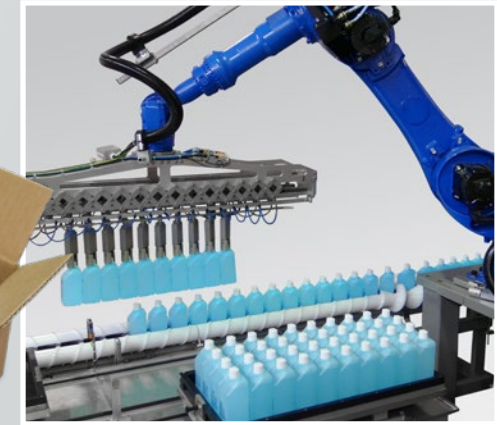

Effective removal of infusion bottles from the clean room and **loading** of the autoclave racks

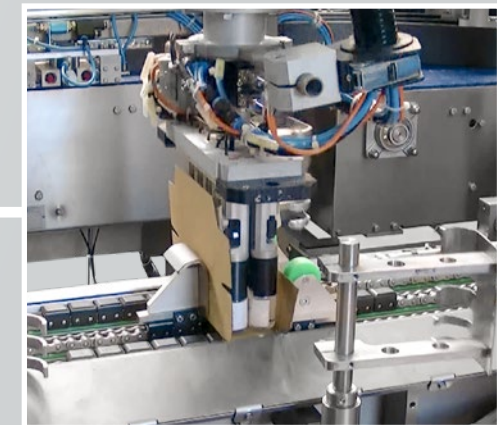

Safe handling of filter cartridges in the pharmaceutical environment

Row-by-row collation and **layer-by-layer insertion** for high production reliability

High packaging quality of infusion bottles thanks to intelligent technology

In addition to our wide range of products for almost every packaging task we provide a specific competence centre for the pharmaceutical industry. Besides GMP-compliant flexible systems, we also offer support with the qualification (DQ/IQ/OQ/PQ) and validation of our systems.

With us, you are always with the best on the market. Test us!

THE EXPERT FOR PACKAGING SOLUTIONS

ETT is a medium-sized packaging machinery company based in the south of Lower Saxony. More than 200 employees design and produce innovative packaging systems for well-known customers in Europe and Global – at the highest quality level. Our automated packaging systems are in great demand in many companies in the phar-

maceutical, food or chemical industries that produce products with high brand recognition.
